ejercicio	tema
Java	
u1Java/FreeHInputStream.java	Process, ProcessBuilder, InputStreamReader, getInputStream(), free -h
u1Java/IpListLinuxWin.java	Ip -a, linux, windows, InputStream, regex, split(), matches(), System.getProperty(), Process, ProcessBuilder
u1Java/Ip.java	Ipconfig, *PrsocessBuilder*, waitFor(), exitCode, InputStream
u1Java/TarCompressor.java	Tar, ProcessBuilder
u2/Threads/Banco.java	Runnable, lambda, new Thread(), synchronized, join()
u2/Threads/CancionInfantilMain.java u2/Threads/CancionInfantil.java	Thread, enum, Runnable, setPriority()
u2/Threads/CarreraCorredor.java	Synchronized, wait(), System.currentTimeMillis(), notify(), Object
u2/Threads/CarreraNotifyAll.java	isAlive(), interrupt(), notifyAll(), Thread, Object, synchronized, ArrayList<Thread>
u2/Threads/ImplementaRunnableMain.java u2/Threads/ImplementaRunnableClase.java	Runnable con parámetro en constructor, run(), Thread, setName(), getName(), ArrayList<Thread>, start(), join()
u2/Threads/SynchronizedCounter.java u2/Threads/SynchronizedWith5Threads.java	synchronized, Runnable, Thread, join()
u2/Threads/Thread3OpcionesAux.java u2/Threads/Thread3OpcionesMain.java	extends Thread, run(), lambda vs Runnable, start(), join()
u3/Unicast/ClienteServidorBasico	DatagramSocket, DatagramPacket, UDP Unicast, receive(), end(), InetAddress, getByName(), getBytes()
u3/Unicast/ChatWithIpList	DatagramSocket, DatagramPacket, UDP Unicast, receive(), end(), ArrayList<InetAddress>, getByName(), Scanner, getBytes(), getAddress()
u3/Unicast/LiftControlRoom	enum, Thread, UDP Unicast, JFrame, JPanel, Jbutton, Swing
u3/Unicast/MulticlientChat	UDP Unicast
u3/Unicast/Tarea1	UDP Unicast, parseInt(), args
u3/Unicast/UnicastPrime	UDP Unicast, Scanner, primo (isPrime()), getPort()
u3/Unicast/UdpConPuertosPredefinidos	UDP puertos predefinidos, doble puerto
u3/Broadcast/BroadcastBasico	UDP Broadcast, setBroadcast(), getAddress(), getPort(), wildcard (escuchar en cualquier red)
u3/Broadcast/BroadcastNotepad	UDP Broadcast, setBroadcast(), ProcessBuilder
u3/Multicast/MulticastSend	UDP Multicast, NetworkInterface, getNetworkInterface(), Scanner, MulticastSocket, joinGroup()
u3/TCP/EnviarPdf	TCP, Socket, ServerSocket, accept(), DataInputStream, DataOutputStream, getInputStream(), getOutputStream(), FileInputStream, FileOutputStream, lectura y escritura de bytes, leer y escribir byte a byte, read(), write(), Thread (lambda)
u3/TCP/ServerComando	TCP, BufferedReader, readLine(), ProcessBuilder, writeUTF(), readUTF()
u3/TCP/ServerCuentaConsonantes	TCP, Character.toLowerCase(), Character.isLetter(), charAt(), contar vocales y cononantes
u3/TCP/TcpConThreads	TCP, Thread (Runnable), pasar el socket como parámetro al

	Runnable, server.accept()
u4/EmailConMaven	Smtp, email, dependencia de 'simple mail' (pom.xml), simplemail, simplejavamail
u4/HtmlServer	HTTP, html, BufferedReader, BufferedWriter, FileReader, readLine(), write(), flush(), split(), replaceFirst()
u4/ApiOperaciones	HTTP, JSON, switch, Integer.parseInt(), split(), respuestas HTTP, suma, resta, multiplicación, división, HTTP 200, HTTP 400
PracticaExamen/TcpBidireccional	TCP bidireccional, server recibe y devuelve, writeUTF(), readUTF()
PracticaExamen/ObserverUdpPrimo Observer/ObserverUdpPrimo	UDP bidireccional, observer simple, server recibe y devuelve
